

2021-2022

General Education Requirements for the Semester Curriculum

The following degree requirements are effective summer term 2019 and apply if you began your career as a regularly enrolled college student at Ohio State summer term 2012 or later. Consult your advisor before making enrollment decisions.

GOAL

Ohio State's **General Education (GE)** is an integral part of an Education and Human Ecology (EHE) education. General education, as embodied in EHE, provides the development of knowledge, perception, attitudes, and skills necessary to understand society's traditions and past, its accomplishments and aspirations, its relation and responsibility to the natural world, its diversity and plurality, and its problems and needs. The **goal** is for you to attain a sense of self within society that invites a continuing desire and ability to learn and work with others for future realization of the human potential. Specific goals aimed toward the broader goal of the GE are listed below under the twelve categories of the curriculum.

COLLEGE OF EDUCATION AND HUMAN ECOLOGY

EHE offers six degrees from 3 departments offering majors in Human Sciences, Teaching and Learning, and Educational Studies. This document outlines General Education requirements for:

Bachelor of Science in Education
Bachelor of Science in Health Promotion, Nutrition, and Exercise Science
Bachelor of Science in Hospitality Management
Bachelor of Science in Human Ecology
Bachelor of Science in Human Development and Family Science
Bachelor of Science in Nutrition

Some major programs have specific GE requirements or recommendations; please see page 7 of this document, consult your major program sheet and with your academic advisor to assure you are completing the necessary coursework for your program. You are responsible for knowing the published policies governing the curriculum you are pursuing, as well as the regulations and procedures of the college and the university.

PREREQUISITES

You are responsible for fulfilling all prerequisites to courses in which you enroll. Failure to satisfactorily complete prerequisites may delay graduation.

GENERAL COLLEGE REQUIREMENTS

You must earn a minimum of 120 semester credit hours to earn an EHE degree. However, some major requirements will exceed 120 hours. Completing 120 hours is a necessary but not sufficient requirement for graduation, as you must also complete all major requirements to earn an EHE degree.

Remedial courses (courses at the 10XX level or below, and English 1109) and credit hours earned in repeated course work do not count toward the 120 hour minimum requirement for degrees offered by EHE. Note that you can take both "versions" of cross-listed courses (e.g., Comparative Studies 2670/Philosophy 2670); however, since the two versions are in fact the same course, only one may count toward your minimum degree hours.

Upper-division courses are defined as all EHE courses at the 3000 level or above.

The number of hours required to complete the degree with a given major will depend on your program and goals

You may need to plan a program of more than 120 credit hours if you wish to complete specific professional training, are preparing for graduate study in certain disciplines, or have multidisciplinary goals.

If the combination of course work for the GE, prerequisites, and your major program totals fewer than 120 hours, you have many options for the remaining hours, called electives. With your elective hours, you could pursue a second major, a minor, or a combination degree program; select a set of courses on a specific topic; engage in an undergraduate research experience; do internships; and/or study abroad. You are urged to meet with an EHE advisor to work out a plan that best fits your needs and interests. In no case shall the number of hours required for graduation be fewer than 120.

Within the minimum 120 credit hours, you must have:

- A minimum of 30 credit hours earned through regular course enrollment at Ohio State.
- Regular course enrollment at Ohio State and in the College of Education and Human Ecology in your final semester.

In addition, you must have:

- A cumulative grade point average (GPA) of at least 2.0 for all work attempted at Ohio State.
- A cumulative GPA of at least 2.0 in your major.
- An application for the degree on file two semesters in advance in the EHE Undergraduate Student Services Office, A100 PAES Building.

In the case of a student returning from a leave of absence (LOA), if the student has earned fewer than 90 credit hours towards the program and has been on a LOA for more than 3 calendar years, the student will be placed in the current program year. If the student has earned more than 90 credit hours towards the program and has been on a LOA for more than 3 calendar years, the student can complete the program. If a student has been on a LOA for less than 3 calendar years, the student can complete the program he or she started or petition to complete the current program year.

GENERAL EDUCATION (GE) REQUIREMENTS

The curricular requirements are divided into twelve categories. In fulfilling the GE, you may petition (in advance) in EHE Undergraduate Student Services to substitute upper-division courses that meet the spirit of the GE for courses on the GE. If you have transferred to Ohio State from another institution, you can often fulfill part of the GE with approximately equivalent courses already taken. Your transfer course work will be reviewed in EHE Undergraduate Student Services, and courses that meet the spirit of the GE will be applied to the GE.

You must earn at least a D in a course for it to fulfill a GE requirement. Courses taken on a pass/non-pass or satisfactory/unsatisfactory basis cannot be used to fulfill GE requirements.

EXCLUSIVITY OF GE, MAJOR, AND MINOR COURSES

Students in the College of Education and Human Ecology may double-count completed coursework to meet both the GE and major requirements, where applicable. If the minor consists of more than 12 semester hours, some overlap with the major may be permitted. A student is permitted to overlap up to 6 credit hours between the GE and a minor. Courses may be double-counted on both the major and the minor.

Some GE courses are listed in more than one category, GE courses may be used to fulfill a maximum of two GE requirements where applicable. Exception: Science, Open Option and Culture and Ideas or Second Historical Study are unique GE categories. Therefore, a course listed as Open Option and Culture and Ideas or Second Historical Study courses can only fulfill one of the unique GE categories. A course listed in both the Biological and Physical Science categories can only fulfill one of the GE Science categories.

REQUIREMENTS FOR THE MAJOR

Courses taken on a Pass/Non-Pass (PA/NP) basis cannot be used towards the major. Additional information regarding PA/NP is included as part of University Faculty Rule 3335-8-21.

Overlap is permitted between the major and the GE except as expressly disallowed by the rules of the major and the GE.

At least one-half of the credit hours in the major must be credit from completed Ohio State course work. Note: AP/IB/EM credit and transfer credit from other institutions are not considered to be "Ohio State course work."

A 2.0 cumulative grade-point average (GPA) is required for all major course work. (Note: some majors require a major GPA higher than 2.0 to meet graduation requirements.)

If you are pursuing multiple majors, course work may overlap between the majors, provided that each major department allows such overlap and that each major has at least 18 unique (non-overlapping) semester hours. Similarly, if you are planning multiple majors, there may be overlap between major course work and the GE—again, with permission of the major department and at least 18 unique non-overlapping semester hours on each major.

MINOR REQUIREMENTS

A minor consists of a minimum of 12 semester hours at the 2000-level and above and a maximum of 18 semester hours. At least 6 hours on the minor must be at the upper-division level. Upper-division courses are defined as all courses at the 3000-level or above, Philosophy 2500, all courses taught by departments in mathematical and physical sciences (Astronomy and Astrophysics, Chemistry and Biochemistry, Computer Science and Engineering, Earth Sciences, Mathematics, Physics, and Statistics) at the 2000-level and above (except for courses numbered 2194), and foreign language courses taught in the language at the 2000-level.

1000-level courses may not be included in a minor. No more than 3 hours of X193 course work may be included in a minor, and no more than 3 hours of courses graded "S/U" may be included in a minor. Up to 6 total credit hours of transfer credit and/or credit by examination may be counted toward a minor. A maximum of 6 semester hours on the minor may also count on the GE.

No grade below a C- will be permitted in courses constituting a minor. However, you must receive a 2.0 cumulative GPA for all minor course work. Courses taken on a pass/nonpass basis may not count toward a minor.

You are not permitted to take a major and minor in the same subject. However, if the minor consists of more than 12 semester hours, some overlap with the major may be permitted. Consult your advisor.

You may pursue more than one minor. Each minor must contain a minimum of 12 unique (non-overlapping) semester hours.

Once a minor program form is on file in the college office, any changes must be approved by the departmental (minor) advisor. Students are strongly encouraged to declare the minor and file the minor program form as early as possible; declaration of the minor and filing of the minor program form must occur at least one term prior to the graduation term.

REQUIREMENTS FOR ADDITIONAL BACCALAUREATE DEGREES

In the case of a student pursuing **multiple degrees**, at least 30 additional semester hours (beyond the 120 hours required for a single degree) must be earned for each additional degree sought, and at least 18 of the additional 30 hours must be EHE or EHE-approved upper-division coursework. The GE requirements for each degree must be fulfilled. No overlap between majors, or between major and the GE coursework.

Note: different rules apply to students pursuing multiple professional degrees such as in the Arts, namely the BAE, BFA, BM, BME, and BSD. See materials specific to those programs for details. Consult your advisor.

EDUCATION AND HUMAN ECOLOGY MAJORS

The information contained in this curriculum sheet pertains to students following one of the majors listed below.

DEPARTMENT OF EDUCATIONAL STUDIES

Special Education

HONORS COURSES

In order to enroll in an honors course, you must be an honors student or have instructor permission. Check the course catalogue (course bulletin) at buckeyelink.osu.edu for a full listing of honors courses. (Honors courses are listed only if there is no equivalent, nonhonors course available or, in the Natural Sciences, if the honors version has a lab and the non-honors version does not have a lab. Honors courses are marked with an "H" after the course number.)

WRITING, 6 HOURS

The goal of courses in this category is to develop skills in written communication and expression, reading, critical thinking, oral expression, and visual expression.
