OnCourse Updates

OnCourse will be receiving a makeover on January 11, 2021. Here is what you can expect to see in the platform soon!

Have questions? Email us at oncourse@osu.edu or visit us at: advising.osu.edu/oncourse
Icons Designs and Navigation Bar Changes:

The icons at the top of the screen and on the navigation bar will be changing to the icons pictured here. They will stay blue and remain a white background.

At the bottom of the navigation bar, you will now have the option to open the side bar which will display the name of the page next to the corresponding icon.

Please be aware that the Appointment Queue and Unread Messages icons have switched places on the top bar.
New and Improved Quick Search
The Quick Search feature will now be in the middle of the top bar. Quick search also includes a drop-down arrow to help you locate a user faster and more efficiently.
Notification Alerts

Instead of seeing notifications in a yellow banner at the top of the page, a yellow box will appear on the bottom, right-hand corner of the screen. These notifications occur when a report is ready, when settings are changed, and when a student checks-in or drops-in to your queue.

New Availabilities Report ready!

Your Availabilities Report has been downloaded. A copy is available in the Download Center for Reports.
